

# “Executive Six Sigma for IT and Software Engineering” Workshop

Agenda for November 06, 2007

*No Matter what business you are in....*

*You are also in the software business*

Nowadays, the reliability of software and information technology is critical to the success of your business.

Lean Six Sigma and DFSS (Design for Six Sigma) when combined with other frameworks (CMMI®, ITIL, PSP, TSP, ...) and software engineering best practices, offer unique opportunities to achieve unprecedented levels of quality and customer satisfaction.

Discover how Systonomy has helped global organizations such as Siemens, SAP, EDF and HP to lead the cultural change imposed by this new perspective on software quality and how to overcome the challenges of deploying Lean Six Sigma and DFSS to your Software Development and IT Operations.

## **Speaker Biography** - Dr. Radouane Oudrhiri

Dr. Radouane Oudrhiri is CTO of Systonomy a consultancy company, specializing in Software Quality Engineering and Six Sigma for ICT and Software. He has more than 20 years of teaching and consulting experience in software quality engineering, process improvement and Six Sigma/DFSS for software. Radouane has an M.S. in Operations Research from ENSAE Paris, MBA and a Ph.D. in information systems and Decision from ESSEC Paris.

Radouane is a Software Six Sigma Master Black Belt trained by GE. He is an expert in software architecture, design, quality engineering and sits on the board of multiple technology companies. He is a visiting lecturer in software engineering at Kingston University, Telecom-Paris, University of La Sorbonne Paris and evaluator at the European Commission on the Software Process Improvement Experience and Mobile Technologies.

**Software Engineering Competence Center**

Smart Village KM 28 Cairo/Alex Desert Rd.

Phone (202) 3534-5000 / 5201
