

Eng. Ahmed S. Elsheikh Senior Quality Consultant

Business in brief

Ahmed has more than fifteen years of experience in Software and IT industries. He has previous experiences in software development as an analyst & designer, project manager, QA manager and process improvement leader. Ahmed helped many organizations, in Egypt and the Gulf area, enhance their capabilities and achieve higher performance levels. He participates in providing SECC consultancy services to national and international companies including TSP/PSP, Systematic Reuse, Process Improvement for SMEs, Agile, CMMI & SPIG based process improvement and Six Sigma.

During the past eight years, Ahmed worked for SECC as a quality consultant. He delivers consultation services in many fields as well as provides a wide range of training courses portfolio. He participated in developing SECC assets such as training courses, process guides and assessment models.
